

Respondus Publisher Server Settings

10/29/2008

CE6 Quiz/Test Publish Settings:

Learn how to set up a quiz/test publishing server for Respondus to CE6 transfer

1. While Publishing to CE6, click the **WebCT Server drop down menu** 

2. Select the **add new server** option 

3. Leave the radio button above selected to "Download....." and click the **Next** button to check for preconfigured

server settings

Download the preconfigured server settings for:
Edison Community College

Next >

4. Enter **CE6 Server** in the item 1 text box. In Item 2, enter your **username and password** in the corresponding text boxes. Click the "**Save my Username and Password...**" radio button if you wish to have respondus remember your password (not recommended if it is not your computer!)

1. Enter a name to describe this WebCT CE6 server (e.g. My WebCT Courses)

CE6 Server

2. Enter your login information for this WebCT CE6 server

User name | ehochmeister | Password | xxxxxxxx

Save my User Name and Password on this computer.
(If this is a shared computer, don't select this box!)

5. Leave the **Run Configuration test** radio button selected, click the **Next** button to continue  

Next >

6. Once the Test completes successfully, click the **Next** button to continue (call Edison Online if the test does not

complete successfully).

Connection Test: Completed Successfully.
Click [Next] to continue.

Next >

7. Click the **Finish** button to save your server settings 

This tutorial has demonstrated how to set up a quiz/test publishing server for Respondus to CE6 conversion
